Stand up Counterbalance Trucks

HYUNDAI MATERIAL HANDLING

Your satisfaction is

Hyundai introduces a new line of **9-series** battery forklift trucks.

The newly designed stand up counter balanced trucks provide every operator with comfortable driving, increased productivity and easy maintenance.

Compact forklift with proven AC technology

- Maximum performance
- Comfortable operating room
- Curve control system
- Load indicator (optional)

- Water proof controller
- EHPS Steering system for higher efficiency
- Ergonomically designed operating system
- Self-Diagnosis by display system
- Auto tilt leveling (optional)

0.3

Superior Power & **Optimal Performance**

Smooth running, efficient and ergonomically designed, 15/18/20BCS-9 series are built to meet your needs.

Curve Control limits travel speed based on turning radius, reducing speed for a smooth, precise turning operation for the driver.

Driving Speed

Minimum Turning Radius

Compact design suitable for narrow aisle operation guarantees work efficiency and maximum space utilization.

■ Some of the photos may include optional equipment.

Dual Drive Motor & Auto Parking System

Powerful and efficient dual drive motor enables superior thoughput with faster speed. Electric disc brakes provide emergency stopping and parking for the truck. Parking brake actuated automatically when the pedal released. The pre-adjusted brake assemblies require no maintenance.

Energy Efficiency

H(High) mode : 100% N(Normal) mode : 110% E(Economic) mode : 120%

High Technology ZAPI Controller

The efficient, almost noiseless, 8kHz(high frequency) controller provides smooth and operation and protection for low & high voltage, overheating and fault recording.

Whenever operator use the steering, hydraulic motor is activated it reduce steering noise and energy consumption.

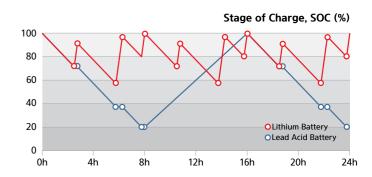

Drive Motor & Pump Motor

AC motors are designed for optimum reliability and efficiency while providing low noise levels. The AC motors are equipped with temperature sensors to ensure long motor life.

Li-ion Battery (Optional)

The demand for Li-ion batteries is increasing due to their high energy conversion efficiency and fast charging capability within the 2-hour range.

(Li - ion Battery Capacity: 38.4V/690Ah)

Graph comparing the charge and discharge

Optimised Ergonomics &

Advanced Safety

A design based on human engineering relieves fatigue and increases operator's efficiency.

■Some of the photos may include optional equipment.

Adjustable Armrest and Large Backrest

Adjustable armrest and large backrest with soft material cushion are applied for operator's safety and comfort.

Joystick Lever

Minimal operator effort is required for precise, safe and productive control. The lever's contoured design provides comfort operation.

New High Visibility for Safe Operation

The operator is able to work with increased safety and accuracy due to a wider mast

Cup Holder, Console Box & Storage

Additional storage compartments are located inside the operating space for operator's convenience.

Strong Overhead

The safety overhead guard meets ISO 6055 and ANSI regulations and protects the operator during hazardous work.

Non Slip Floor Mat

Blue Spot Lamp (optional)

Accessary Switches

12V Power Socket

Best Convenience &

Easy Maintenance

An ideal arrangement of component parts ensures easy access and convenience for maintenance.

15/18/20BCS-9

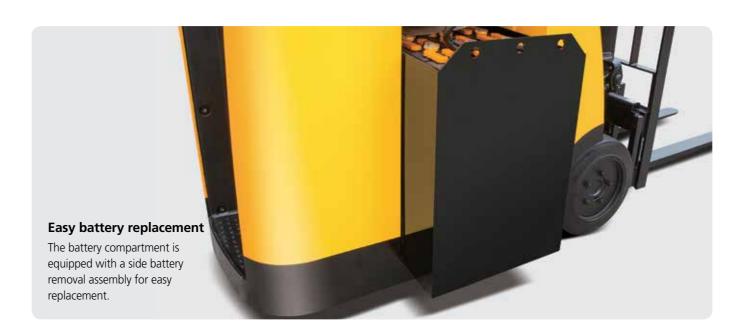

Advanced LCD Monitor

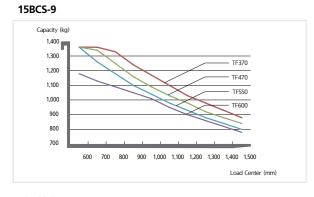

H (High) mode **N** (Normal) mode **E** (Economic) mode **Turtle mode**

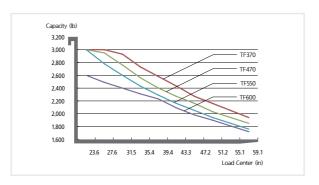

The LCD color monitor with 3.5 inch graphic smart display allows the operator to easily and efficiently control the machine. The monitor provides information about speed & accelerator level, steer angle & travel direction, battery discharge indicator, hour meter & working mode. The optional load indicator displays the load weight and the height of fork in the monitor. System fault is also displayed to keep the forklift in the optimum condition. The operator can select various performance modes to meet all working conditions. It is available multi-languages (maximum 11) for operator is available for global use.

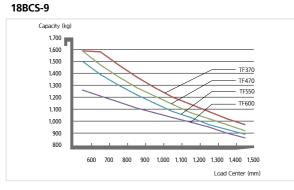

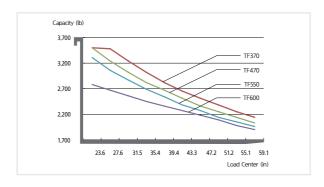

New 9 Series

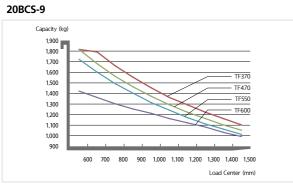

Load Capacity

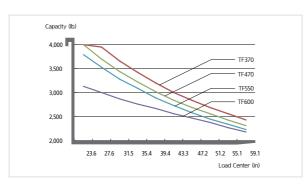

Optional Items

Integral Sideshift

- Max. 120mm

UL "EE" rating

Beacon Lamp (Amber)

Rear Work Lamp

Fork Length (mm)

- 900 / 950 / 1,000 / 1,050 / 1,150 / 1,350 / 1,500 / 1,600

Fence

- Wire net type (STD)

- Tempered glass type (OPT)

Tire

- Vulkollan

Cold Storage (for -30° cold working environments)

- 700AH (15/18BCS-9), 800AH(20BCS-9)

3 Phase Charger

- 220/380V, 410V, 440V

LED work lamp

Blue spot
